Polly the Lion

- Charlotte Kwok 4A

One day, Polly the Lion went to a competition. The competition was about, "Who is the King?" When Polly went to the competition, he saw Jimmy the Tiger, Colly the bird, and Silly the Pig. Then Polly said, "You are so wicked, I am the strongest in the forest! Hahaha!" They answered, "Really?"

When the competition started, the first event was running. Polly was first, Jimmy was the second, Silly was the third, and Colly lost. The second event was jumping. Again, Polly was first, Silly was second, and Jimmy lost. The third event was swimming, Polly was first, so Polly became the king.

Polly was, however, a bad king. He had so much money. One day, a horse fell down into the sea and he said "Help! Help!" but the lion king said, "Hahahaha... why? You have legs, you can swim by yourself." After one minute, the horse died in the sea and Polly only laughed, so all the horses didn't like him. When he chatted with them, they just went away. Two months later, he didn't have any friends, but Jimmy had many friends. Polly thought, "Why does Jimmy have so many friends, but I have no friends. Am I so bad?"

On another day, Polly saw a sheep fall down into the sea. He ran very quickly to help the sheep and said, "Are you ok?" The sheep said, "I'm ok, thanks!"

One month later, Polly had many friends. Polly the Lion became good forever.

The Alien

In 1949, there were many aliens that planned to attack the Earth. They made an alien UFO called the United Flying Object. They had to arrive in the world to make a base. They attacked Area 52 and struck the staff. They had weapons such as a prototype-C laser rifle, light saber, and The Force. They had special powers, such as the ability to stop bullets, stop heartbeats, and stop time.

Then the US army appeared to stop them. The army commander made battle plans immediately. In 1950, the army went to a TV station and said, "We must defeat the aliens!"

Then they arrived in Area 52 and made an extra-large war. They walked in the subway and suddenly the aliens appeared! The aliens were victori

ous, but the army saved people at the Lab 1 and Lab 2! Then on the second day of the battle, 146 aliens guarded the base and struck the people again! The army struck the al-

ien's base too. Then N.A.S.A. appeared and the Martians were all destroyed! The army stopped the aliens from falling out and finding their own home. The aliens found a new home: Mars. They moved there and called themselves Martians. All the people were ecstatic and delighted!

English Idiom Corner

Every cloud has a silver lining.

Don't cry over the spilt milk.

Nothing ventured, nothing gained.

Virtue is it's own reward.

One good turn deserves another.

Health is better than wealth.

Don't speak ill of others behind their backs.

All that glitters is not gold.

Love DIY: Do it yourself

What do you like doing in your spare time? I like doing handicrafts in my spare time. I enjoy drawing too. I started doing handicrafts when I was six. My first thing was a house model. However, I want to make a new house model

because my old one was made of paper and now it is very soft. The new one is made of wood, so now it is

very strong. It is stronger than the old one. I also made some machines in the past that I can play with. I have fun with it a lot! I don't want to watch youtube or play

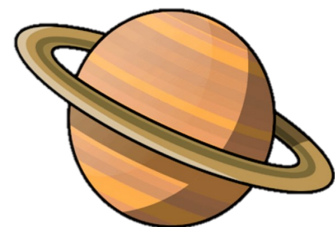

games because I want to play with my handicrafts. What about you? Do you like doing

handicrafts? What things can you make? Next time I want to make a phone case.

Our Solar System: The Planet I like Best

I like Saturn best because I like the rings of Saturn. The rings are made out of ice and rocks, some of them are as big as a house, some of them are as small as a grain of sand! Saturn has thousands of rings! Saturn is the second largest planet in our solar system!

The Planet Saturn

Now I'd like to introduce another planet in our solar system to you. Jupiter is the largest planet in our whole solar system! It has a very very big dot on it!

The whole solar system does not have living things in it except for Earth. Earth has so many countries such as China, England, France, New Zeland, Australia, and the United States of America.

The Most Popular Game: MINECRAFT

Minecraft is a game like Legos, but it can be played on the computer or phone. You can build anything, like a house or tower with unlimited blocks. As of June 2015, over 70 million copies have been sold!

game, you need to choose multiplayer or single player. I usually choose single player because it is the best. Then you need to create a world and select a game mode.

In survival mode, I will gather some basic material like wood, then I will make some wood planks, sticks and a pickaxe. I will gather some advanced materials like cobble stones, stone, and coal. Then I will make some weapons for attacking monsters.

At night, monsters want to kill you. you need a weapon to attack monsters. If you kill the monsters, you will get some rubbish material like bones, stings, rotten flesh, spider eyes, and lots more.

In creative mode, you don't need to gather materials, you just build some things and do commands. I have played this game for over two years. It's my favourite game because I can play with friends online.

My Favourite Pet - Maltese Dogs

My favourite pet is a dog but I don't have a dog at home. I think that is because my mum is afraid of dogs.

I like dogs because they are very smart, they help their masters to look at their house and do not let bad people go in. They will have fun with children if the children are not afraid, and the children will play ball games with them or maybe run together.

However, there are some dogs that I do not like and am afraid of because they are bad. Some dogs will bark at others. Some dog masters are bad too, for example, when they go to the toilet on the floor, they do not care about it and they do not clean it! Some masters do not walk with them. When the dogs are walking and the masters are just chatting with

their friends, the dogs run everywhere and make people afraid.

If I have a dog for a pet, I will love it, I will play with it, and I will be a good master too. I like Maltese dogs the best!

About My Life

I always have a wonderful day. Let me tell you about my life.

In the morning, I always wake up at 6:00 a.m. from Monday to Friday. How about Saturday and Sunday? I wake up at 8:30 a.m. Then I eat a great breakfast. Breakfast is very important so I always eat two slices of bread with butter and a cup of milk for breakfast. The bread can give me energy. Next, I go to school at half past seven or study at home and read books for two hours on

holidays.

In the afternoon I eat lunch at school or at home at half past twelve. I always eat a bowl of rice, some vegetables, such as carrots, beans, lettuce, and I also eat some meat, for example, pork, beef and burgers. Then I do homework at school or

do exercise, like running and skipping outside for 3 hours if that day is a holiday.

In the evening, I first pack my schoolbag before eating my dinner. My dinner is usually a bowl of rice and soup, vegetables, meat, and an apple or orange. Then I take a bath. After that I watch 30 minutes of TV. Next, I practice penmanship. Finally, I sleep at half past ten in the evening.

I hope you can have a wonderful day too!

Halloween fun with some Elite Helpers!

The Christmas Mini Show with some Elite Helpers!

A Journey to Singapore

Before Christmas, my family and I went to Singapore. In Singapore, the weather is sunny and hot. We wore a hat, a T-shirt, shorts and trainers.

Then we went to the Festive Hotel in Sentosa. We saw a beautiful swimming pool and went to swim. We could swim very fast. On the second day, we went to Universal Studios. There were a lot of games that we could play.

My favourite game is Jurassic Park Adventure. We need to sit in a round boat to go on an adventure. We saw a lot of dinosaurs. I was very scared but the ride was very fun and exciting! At last, we watched Sesame Street Christmas Show. We were very happy. Then we went to have dinner.

On the last

day, we went shopping. We bought a lot of food. In the afternoon, we went back to Hong Kong by plane.

In this journey, I was very happy and excited because I could take a lot of fun rides with my family.

I like Singapore!
