

## Helping is Good –Winnie Wong

I like to go to school because there are a lot of things that I like to do such as chat with my good friends at recess because I can know more about my friends. We always talk about our life experiences, such as our cooking skills. We also talk about some funny and stupid things that we have done. That always makes us laugh and laugh.

I like helping teachers too because I want the teachers to be happy. I help them to give out the exercise books when students need them. After I help the teachers, I feel glad and the teachers are happy too. Helping is good!

## What I like to do at school

Wingi Wong

I like to play with classmates and talk with classmates because they are funny and interesting. They always talk to me and listen to me. They love to talk about their hobbies and their family members very much.

I like reading books at school because reading can improve my writing skills. I can learn more vocabulary by reading English books. I like to read books about chemistry best because I can learn the names of elements and about how to do experiments. Science is fun!

## Lazy Ken - Angel

Once upon a time, there was a country and all the people were hardworking. However, someone was lazy, he was called Ken. Ken didn't do his housework such as folding the clothes, and everyone called him "Lazy Ken".

One day, Ken's mum ordered him to hang up the washing, but Ken shouted, "I don't want to hang up the washing!" Suddenly, a fairy showed up

Laziness is not happiness

and said, "Oh lazy Ken, you are so lazy. I will bring you to another country."

One hour later, they were in another country. Ben asked the fairy, "What is your name? Why did you bring me here?" The fairy replied, "You can call me Angela. I brought you here because you are so lazy." Angela brought Ken to a candy house and said, "If you are hungry, you can eat some candy, but you shouldn't go out. If you go out of this house, you will die."

Ken was bored. He looked out of the window. He saw a boy shout to a girl,

"Help me to pick up the ball!" He saw that the girl needed someone to help her. She was crying and unhappy.

He said, "I know that laziness is not good." Then, Ken asked Angela, "Can I leave this country?" Angela replied, "Yes you can!"

After that, Ken was hardworking forever.

We should be hardworking too! Let's do it now!

## How to Become Good Children –Anson Leung, Angel Ng

I am going to talk about how to become good children.

If you want to become good children, the first step is to become polite. Good children should be polite all the time. We should get on well with others and be polite to teachers.

The second step is don't be rude or shout at others. Good children won't be rude or shout at others. We should not fight with others if we want to be good children.

The final step is to study hard. We should always work hard for our exam or dictation.

At the end, I think we should be polite,

not rude, and study hard to become good children. Thank you for reading the article and I hope that you will become a good child!

Everybody wants to be a good student, but how do you do it?

First, you should be polite to your family, school-mates, teachers, and relatives. You must say, thank you or please when someone helps you. You should also help everybody if someone needs help.

After that you should be tidy. You should change your clothes every day, tidy your bookshelf every week, and wash you

hair twice a day. If you do it, you can be the cleanest

person in the world.

Finally, you should have good results. You should study every day. If you don't know how to do the homework, you should ask. You also need to listen to the teachers. Do you know how to be a good student now? I think you can do it. Let's do it now!

## Electronic Screens Damage Children's' Eyes –Aaden Choi

Nowadays, everybody is interested in phones, computers, and tablets. Specialists found that as many as one third of young kids are exposed to electronic devices before

reaching two years old. About 7 percent of Hong Kong kids have sought treatment

for eye problems caused by overuse of electronic products. Be careful if you look at the TV, computer screen or phone screen for too long. Let's read books and enjoy!

Treat your eyes well!

# How to

# -Jack Ling

Parkour is a sport and it can shape you, but it is dangerous. It can include many motions like backflips and obstacle jumps. In 2009, a parkour master did a dangerous stunt, so he died. Nowadays, we can play mobile games like vector to do parkour, but the government does not suggest that people do

those things.

Young men are just like monsters who will do parkour. I think it would make me successful and stylish, but my parents do not suggest me to do that. Safety is more important than parkour. How

Safety First!

to decide? It's your choice. If that can make you healthy, I can answer absolutely "Yes!" But, oh my goodness, this man died from parkour!

# All About Me - Daniel Yeung

One day, my father and I played football in the playground. I saw three boys sitting on the chair and they were bored. I invited the three boys to play with us. I made new friends. After that, we always played football on Sundays.

My favourite hobby is making Gundam models with my father in my spare time.

I love school because I can learn a lot of different knowledge. My favourite teach-

er is Mr Brad and my best friend in class is Ivan. After school, I always do classwork at home, then I play computer games and watch TV.

I like reading comic books because it is very interesting. I can bathe and brush my teeth myself. Sometimes I help my mother to do housework such as fold

clothes and make the bed. I usually go to Toys-R-U's, it is a good place to me because there are many different kinds of toys. My hobby is making Gundam models be-

cause it is fun. Nice to meet you!

# Some Interesting things I like -Corey Chan

Making some cake!

I like to make a cake with my mum because it is interesting, and I can learn how to make a cake.

I like to go to Disneyland and Ocean Park. They

are in Hong Kong. They are good places to play. I go there with my family and my friends.

I like to play basketball too. It is a good sport. It can make you fit and healthy. I can play it in a sports center with my schoolmates.

# Parkour across Hong Kong

Have lots of Friends!

Be a Good Student!

# How to have lots of Friends -Kathy Wong

I like to share food with my friends at school because at those times we are very happy.

I like eating some food with my mum and sister because after school we are hungry.

I can make some paper animals for my sister because I like my sister very much.

If you want to have lots of friends, you need to talk to others.

You need to be happy and don't get angry to others too.

You can share some food with others too. When you share the food, you and they will be very happy. You can play with them. You need to be friendly too.

When they have a problem in the homework, you can help them.

If you do these, you can have lots of friends.

So nice to meet you

# The Beautiful Princess and Good Prince -Jeremy Leung

A long time ago there was a beautiful princess named Kelly, and a good prince named Jacky. They lived in a castle. Jacky had a lot of people and some horses to help him, and Kelly had a lot of helpers to help her too. When they first met, they were unfriendly, so they didn't do anything together.

After one month, the prince came and tried to talk to Kelly. So they became good friends. Then they wanted to marry each other, so they asked their parents.

However, Princess Kelly's fa-

ther did not agree to let her marry the good prince Jacky.

After that, the prince tried to talk to her father to convince the good king to let him marry his daughter.

In the end, they married together and they were very happy in their life.

In this story, we can learn that talking to people can help solve our problems.

# THE BEST OF THE BEST -THOMAS CHOI

Today, Steve goes to mine but suddenly he sees that Herobrine is behind him. Herobrine wants to swing his sword to fight Steve, fortunately Steve dodges Herobrine's sword. Steve hates Herobrine and Herobrine hates Steve.

Later, Steve brings his bows, food, medicine and swords to Herobrine's house. He picks up his bow, and shouts. "Herobrine, come down to have a fight!" Herobrine brings his sword. Steve

doesn't dodge the blow so he gets hurt.

At the same time, Alex sees Herobrine about to kill Steve, so he doesn't let Herobrine hurt him. Alex picks up his sword and kills Herobrine. Herobrine dies.

Steve sees that Alex helps him, so he says, "Thank you Alex!" Steve wins!

We can learn that helping others is the best!
