

# Things to do in Hong Kong

In Hong Kong we will use Octopus cards to buy things and travel around. We can also ride on the Star Ferry! On the Star Ferry, you only need to wait for a moment, then you can cross the harbour! There are beautiful views too.

At the Peak, we can go shopping and visit the Wax Museum. Also, we can go to the Sky Terrace to take photos of the amazing views!

Also, we can have some street food, for example, siu mai, squid and fish-balls. Trust me, they're very yummy!

## Things to do in Hong Kong

By Ericsson Tse

We can visit many places in Hong Kong. Now, I will introduce some to you!

In Hong Kong, we can eat all the food of the world, like fish-balls, sushi and a lot of other foods!

In Hong Kong, we can go to the two theme parks; Ocean Park and Disneyland. In Ocean Park, we can ride on the cable cars. In Disneyland, we can take photos with cartoon characters. It is fun!

In the end, I want to say something to you, 'Hong Kong is the best!'

# My School Picnic Experience

## School Picnic

By Lego Tai

The School Picnic was on the 9th November. I prepared a lot of food and drinks. Our location was Tai Po Waterfront Park. We went there by bus. When we got there, we quickly found vast areas of grass and sat down to occupy it.

Otto went to play badminton with Barbie. Matthew and Roy went to the playground, Eric went to play Chinese chess. I played with Jack. We felt a bit bored because we were the only ones to stay at our camp. I couldn't go anywhere because someone had to look after our things, so I ate some sweet sausages, chicken wings and other snacks. I also drank some drinks.

Suddenly, they all came back. They wanted to go to the playground to play. Otto said to me, 'You must stay here and look after our things!' Then they ran away quickly and I didn't see them again.

I learnt something in this story: I shouldn't always let other people tell me what to do!

## Too Many Computer Games!

Are computer games *bad* for children?

**Yes!**

Says Ericsson Tse

Computer games are bad for children because children need to learn at school, not just play computer games at home. Then they can perform better at school because playing computer games wastes a lot of time and that time can be used for learning and reading books!

But, computer games can also be good for children too! They can help us to relax and learn some new vocabulary.

So, we can play computer games, but we can't spend a lot of time on them. Performing well at school is more important!

**No!**

Says Gaga Li

What do you think about computer games? Do you think they're good or bad? Let me tell you about my ideas!

I think computer games are good for children. They can stop children from becoming too bored. We can play many games easily on the computer, we just need a keyboard and mouse! Online games are fun!

Many people say computer games are bad for our eyes, but I think if we play games responsibly, there will be no problem! We can play many fun games when we feel bored. They can make us happy!

# Interviews

## Mr Brad

By Athena Choi

This is Mr Brad. He lives with his wife. His favourite thing to learn about is science because it is amazing and natural.

He likes reading and writing stories at school. He likes exercising and drawing pictures on the weekend because they are healthy and fun. He can also make fish tanks!

His hobbies are reading books, cooking and running. His job involves teaching drama and his favourite colour is green. He likes Christmas the most out of all the holidays. I like Mr Brad very much!

## Ms Chan

By Otto Wong

I want to write a report about Ms Chan. She lives with her parents and younger brother. I think she is happy to live in this family.

Her favourite things to learn are different languages because Ms Chan thinks they're very interesting and she likes talking to people from different countries. She likes skipping, doing P.E., English, Music and Visual Art lessons. She sometimes goes shopping when there are discounts.

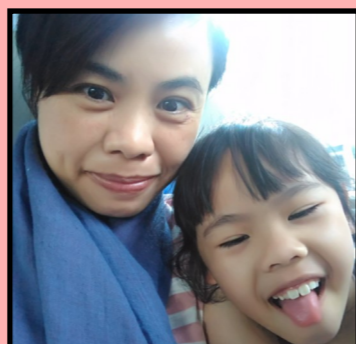

She can make apple crumble. It is very yummy. Ms Chan's hobbies are singing, dancing, playing volleyball and skipping. She likes to eat chocolate, noodles and sushi but she doesn't like to eat cucumber!

## Catherine Kan

By Haylie Kan

My mother's name is Catherine. She is a bank manager in the Bank of East Asia. Her office is in Kwun Tong. She goes to work by bus. She loves to learn how to paint. She takes care of me at weekends. Her hobbies are reading books and watching movies.

## Ms Cheung

By Kitty Man

Today I interviewed Ms Cheung. She lives with her family. Her favourite thing to learn is cooking because she loves cooking. She likes being a teacher at school.

She goes on picnics with her family and enjoys outdoor activities at weekends because these things make her very happy. She can make cakes and her hobby is playing volleyball. She is a good teacher. She teaches me Chinese. She lives in Kowloon.

She thinks Chinese lessons are important because they can teach us more about writing.

# REVIEWS

## Clash Royale

By Jack Lin

This is a tower-defense game. This game is excellent. I will introduce you to this game! There are a lot of arenas, such as Spell Valley, Frozen Peak, Hog Mountain and more! There are also a lot of chests like the silver chest, giant chest, magical chest, epic chest, super magical chest and legendary chest. There are more than sixty cards! There are a lot of different kinds of cards, such as common, rare, epic and legendary.

Now I will tell you how to play the game! There are three towers in our land and the same in the opponent's land. You need to use the cards to defeat your enemy's tower in the battle or sudden death time. Afterwards, if you win, you will get trophies, chests and money!

There are some tournaments to win cards and chests. You can't play this until your player level is eight. There was a huge update in October. There are no more free chests. Instead, the game will order you to do some missions to get rewards. I am in K2FA clan. If you want to find me, then come on in!

Score:

Outstanding

## Raft

By Charlie Ie

Raft is a survival game on Steam. It is about a human on a plank in the sea. There are some leaves, barrels, planks and metals. The man must use them to craft some different items. There are some sharks in the sea too!

I think this game is not too easy, especially on the first night, because the man may be too thirsty and die. However, I still like this game. I hope I can buy this game on Steam too!

Score:

Outstanding

## Should students get less homework?

### Yes!

By Gaga Li

Yes, I think students should get less homework because they need to have time to play! If you were a student, do you think yes or no? I think most people would say yes!

We always do homework. Some is easy, some is hard. Some is so difficult that we don't know how to do it. If we only spent our time doing homework and revision, we would feel so tired!

Also, we need to have time to play. If we don't have time to play, we will feel so bored. After homework we feel tired, and then Mum will ask to help with the housework and so we are more and more tired!

At school, we always help the teachers, even though we are all tired and we do not want to listen to the teacher. Then we need to do homework after school!

In the end, I think students must get less homework!

### No!

By Ericsson Tse

Should students get less homework? No, I don't think so. Students should get more homework.

Why should students get more homework? Because nowadays, all students (not me) are very lazy. So I think we should get more homework to improve them.

Also, some people say they need to get less homework because they think they have no time to play. They think they cannot do so much homework because they are lazy! They should be more hard-working!

In my class, a lot of my classmates hate homework. I think they must be lazy! Do you think they are lazy?

If you like homework, you can ask your teacher to give you more!

So, does this article make you want to do more homework? If you want to do more homework, just do it! You can do it!
